CONSUME is a highly effective wetter/spreader/penetrant. It is effective with most agricultural chemicals unless otherwise stated on label.

While CONSUME has been proven to be a highly efficient surfactant, timing, weather conditions, method of application, and/or mixture with other chemicals not specifically recommended are beyond the control of the seller. Therefore, the user should carefully observe spray deposits, rate efficiencies, compatibilities and effectiveness in initial applications and adjust the adjuvant rate accordingly.

MIXING INSTRUCTIONS:

1. Mix pesticide product with water when tank is about 30% full
2. Then when tank is nearly full add CONSUME
3. Complete filling tank
